ENGINEERED FOR PORTABILITY & CONVENIENCE

Bench Model B-4

The **Packaging Dynamics, Ltd.** Bench Model **B-4** Liquid Filler is an economical table top **fill-to-level** system designed for small production runs. It has been engineered for ease of operation with quick change-over features. Its non-electric pneumatic design can be used safely in hazardous locations.

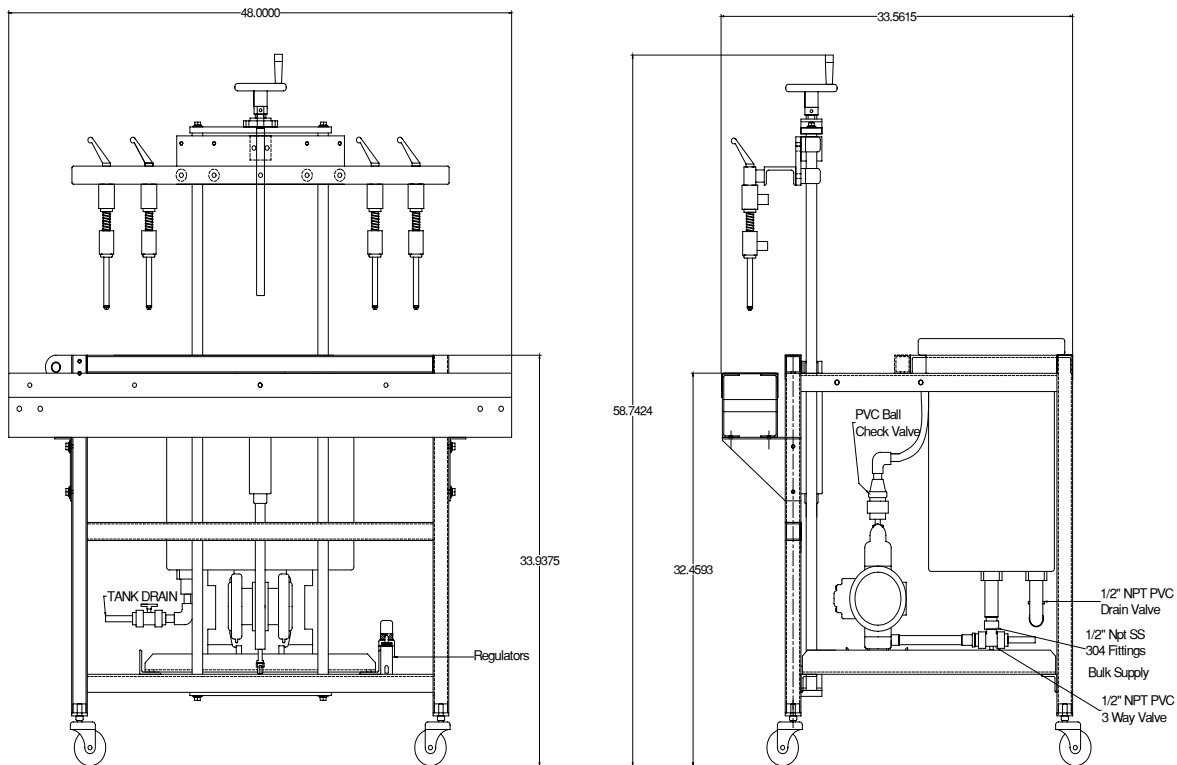

Cart Model SL-4P

The **Packaging Dynamics, Ltd.** Cart Model **SL-4P** Liquid Filler is identical in operational features to the Model **B-4** with the exception that it is supplied with a roll-around cart which provides a greater range of portability. The **SL-4P** can be used for low production runs, cleaned and quickly stored or transported effortlessly to another plant location for use.

The **B-4 & SL-4P Liquid Fillers** are currently being used in the pharmaceutical, beverage, chemical and cosmetic industries.
